THE FACTS: CYBERSECURITY RESOURCES

Cybersecurity is a 24/7, year-round effort that is everyone's responsibility. Fortunately there are lots of great resources available to help keep you, your family, your colleagues, your community and your mission safe online.

Here are just a few of the best:

Websites:

- The [U.S. Army Cyber Command fact sheet page](#) offers resources on a variety of cybersecurity topics, to protect individuals, families, communities and organizations.
- [U.S. Army social media guide](#): The Army's official online guide to social media, with resources for setting up social media accounts, as well as policies, guidance and resources for using social media safely and appropriately.
- [Army Criminal Investigation Command Cyber Crime fliers](#): A large collection of fliers with useful information on online and other scams and how to protect yourself.
- [Army Criminal Investigation Command "CID Lookout"](#): A collection of information about computer security, other computer-related scams and cyber crime alert notices, and cyber-crime prevention fliers.
- [DoD Social Media Education and Training page](#): A collection of links, presentations and resources for using social media safely, from the Department of Defense's Chief Information Officer.
- [STOP. THINK. CONNECT.™](#) offers resources and tools from the Department of Homeland Security's national cybersecurity awareness campaign.
- [OnGuardOnline.gov](#), managed by the Federal Trade Commission, is specifically designed to help people be safe, secure and responsible online.

ABOUT US: U.S. Army Cyber Command integrates and conducts cyberspace, electronic warfare, and information operations, ensuring decision dominance and freedom of action for friendly forces in and through the cyber domain and the information environment, while denying the same to our adversaries.

As of 8 July 2021

-- [National Counterintelligence and Security Center awareness materials](#): NCSC presentations, brochures, fliers and other materials about online threats and how to protect yourself.

-- [Tip of the Day](#): A daily tip and accompanying newsletter article focusing on a specific cybersecurity topic, and steps people can take to protect themselves, from the SANS research and education institute. (NOTE: Scroll to the bottom of the page for daily tips.)

-- [IC3, the Internet Crime Complaint Center](#), is a partnership between the Federal Bureau of Investigation and the National White Collar Crime Center that receives and researches Internet-related criminal complaints.

-- [CISA resources page](#): a collection of information, tips and links on a variety of individual and organization cybersecurity topics from the Department of Homeland Security's Cyber and Infrastructure Security Agency.

-- [FTC Identity Theft help page](#): offers resources to help protect your identity and recover from identity theft, from the Federal Trade Commission.
